QUALITY MATERIAL • QUALITY CONSTRUCTION QUALITY WORKMANSHIP

QUALITY MATERIAL

- On the treated product line, siding is pressure treated Premium Grade 5/8" T1-11 plywood that features a lifetime warranty against termites and fungal decay.
- On the painted product line, siding is 50 year LP SMARTSIDE plywood.
- All buildings come with locks and keys.
- Treated buildings come water sealed with 3 year water sealer.
- 30 year architectural shingles or 29 gauge metal roofs are standard.
- Skids and floor joists on all buildings are pressure treated.
- 5/8 treated or LP Prostruct floor decking

QUALITY CONSTRUCTION

- On the treated and painted product lines, wall studs are 24 inch on center, doubled under siding seams to help seal building, same strength as 16 inch on center (as in home construction).
- Floor joists are 2x4's, 16 inch on center and set into notched skids to prevent twisting. (Floor joists never span more than about 5 ft without being supported by a 4x6 skid.) Floor joists are 12 inch on center on all Garages and 10x20 size buildings.
- Skids are pressure treated 4x6's not 4x4's.

BUILD ON SITE

Backyard Outfitters offers a build-on-site option for those situations where delivery is not viable. Backyard Outfitters cannot paint or water seal on site buildings and Rent to Own is not available. Build on site is not available in all areas. See your dealer for more information.

QUICK FREE DELIVERY & EASY SETUP

(within 30 miles)

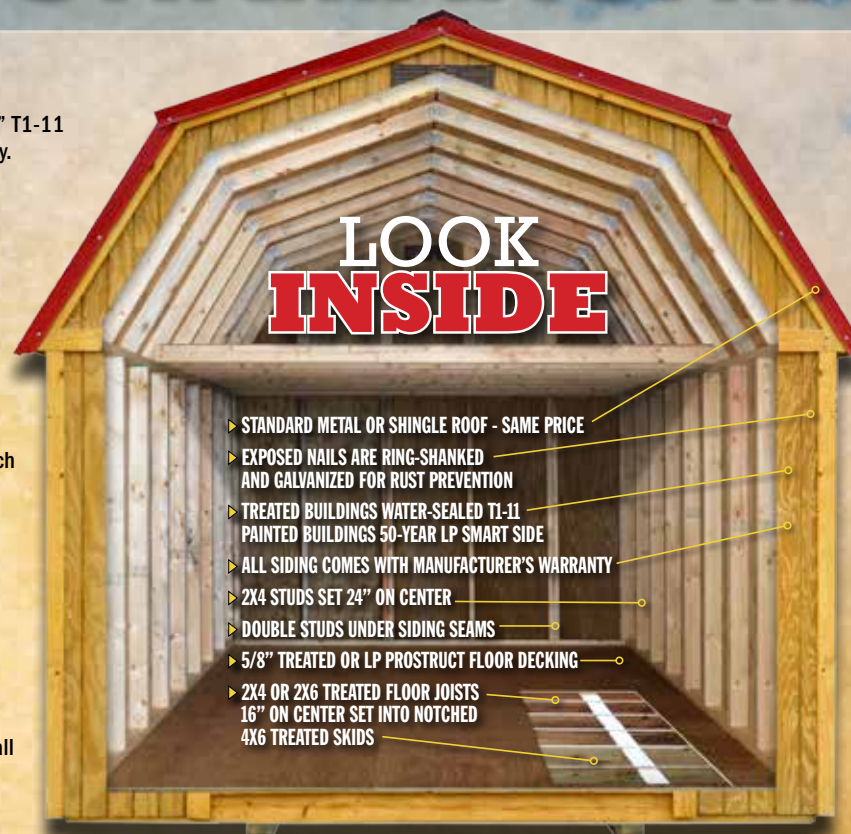

- Free delivery within 30 miles of sales lot, over 30 miles subject to additional charge
- Free setup includes leveling with customer supplied concrete blocks and driver supplied pressure treated shims. Drivers can supply concrete blocks for a fee. See dealer for details.
- No site preparation necessary (if site is accessible with truck and trailer and site is no more than 2 feet out of level). Building will not settle as much if put on gravel or concrete pad.
