## Have we got a SOLUTION for You!!

We have some *exciting news* for you concerning new vehicles for your department! We have been informed, that Dodge has agreed to offer incredibly low pricing, but only to selected dealerships. This means great savings directly to your department.

Robert Veto founded Veto Enterprises, Inc. in August 1969. Having a law enforcement background, he is well aware of budget restrictions put on departments. He knows that departments need quality vehicles and equipment at reasonable costs, so he set out to supply them with the best. We have been supplying the police/fire industry for over 45 years. We serve customers in the continental United States, as well as the export market. Our aim is to provide exceptional service and satisfaction to each and every one of our customers.

We also take in most trade-ins (cars & equipment). If you need your vehicle customized, we will decal and stripe it to your specifications, and will install most equipment, new and/or used. Delivery to most departments can be provided. If you would prefer to lease your vehicle(s), and/or equipment, we work hand-in-hand with several leasing companies to get it done for you.

Bob has served on Law and Order Magazine's Vehicle Design Committee, and has had a hand in redesigning several departments' decal packages.

## Looking for NO COST OPTIONS?

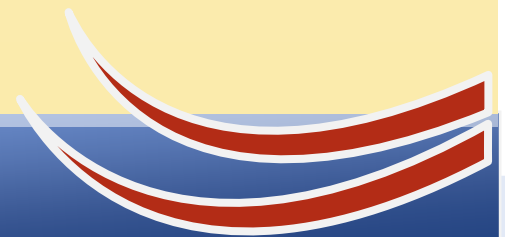

We can take your confiscations, trade-in vehicles and/or equipment, and get you whatever you've been looking for, without taking anything out of your budget!! See Bob for details.

## About Us....

**Veto Enterprises** was established in August of 1969 by Robert A. Veto. Bob started out in the law enforcement equipment field after being an officer. He kept in mind how little money most departments have to spend in order to purchase equipment, and he started what he calls "Creative Selling." He takes in all sorts of trade-ins on newer vehicles and/or equipment. This "Creative Selling" enables departments to purchase things they wouldn't have been able to with funds generated from auctions and such, which normally go into a general fund. Airplanes, exotic cars, boats, trailers, snowmobiles, stoplights, and even jail room novelties are just a few of the trades that have been taken in. In 1992, his daughter, Tina joined the business, and his son Craig started in 2000. His other daughter, Sue, also works with us as time allows.

**Today**, Veto Enterprises is still going strong and heading into our 45th year. We are a family owned and operated business, and have been since the beginning. We serve customers all over the United States, Canada, and overseas. Our goal is to provide exceptional service and satisfaction to all of our customers.

We specialize in American made products!
